PRESS RELEASE

19th August 2009

New Business-Lounge officially opened at CCD Congress Center Düsseldorf

Comprehensive modernisation work has been carried out at the CCD Congress Center Düsseldorf since the beginning of this year, creating a fresh ambience and optimising the services offered at Düsseldorf's convention center. One of the most important innovations completed recently was able to celebrate its official opening on August 19, 2009: the CCD-Business-Lounge.

A reception with selected guests was held in the foyer of CCD Congress Center Düsseldorf to celebrate the opening and was attended by well-known personalities such as Gerhard Bleile, chairman of the Vereinigung Deutscher Veranstaltungsorganisationen e. V. (association of German event organisations) and Daniel Kreutzer, captain of Düsseldorf's ice hockey team DEG METRO STARS.

With immediate effect, the Business-Lounge provides customers and visitors of the CCD Congress Center Düsseldorf with headquarters for information and communication featuring state-of-the-art technical equipment. During events, up to 24 persons are able to convene here or work individually. The new premises are fitted with eight complete PC workstations, additional Internet connections and a fixed plasma screen. The bright and cheerful room structure and open, barrier-free access will facilitate the workflow.

In addition to the Business-Lounge, more refurbishing measures were implemented at the CCD Congress Center Düsseldorf in recent months. Besides new luminous banners in the company colours, new information counters and seats in the entrance hall of the congress center provide a fresh look.

A Garden-Lounge will be created next year in the direct vicinity of the Business-Lounge, intended as an oasis of calm in the revamped working atmosphere of the CCD Congress Center Düsseldorf.

The company 'Lang Shop & Objekt GmbH' in Werl was commissioned with the design and planning for modernisation of the CCD Congress Center Düsseldorf. Exhibition company Messe Düsseldorf and Düsseldorf-Congress Veranstaltungsgesellschaft mbH are sharing the refurbishment costs, which are billed at half a million euros.

Hilmar Guckert, Managing Director of DüsseldorfCongress, sees this revitalisation as an important and necessary investment in the future. "Over the past few years the CCD Congress Center Düsseldorf has captured a very prominent position on the German meetings market – and that's how we want it to stay in the future. The comprehensive modernisation work will create a uniformly modern ambience throughout the CCD Congress Center Düsseldorf, accommodate new technical requirements and further optimise the premises we offer."

You will find further information about the CCD Congress Center Düsseldorf at www.ccd.de.
